

*Dear Principal*

*Thank you for participating in this study.*

*This questionnaire asks for information about:*

- *School background information*
- *School management*
- *Teaching staff*
- *Assessment and evaluation*
- *Targeted groups*
- *Learning environment and curriculum*
- *School climate*

*This information helps illustrate the similarities and differences between groups of schools in order to better establish the context for students' test results. For example, the information provided may help to establish what effect the availability of resources may have on student achievement - both within and between countries.*

*The questionnaire should be completed by you or your designate. It should take about 60 minutes to complete.*

***For some questions specific expertise may be needed. You may consult experts to help you answer these questions.***

*If you do not know an answer precisely, your best estimate will be adequate for the purpose of the study.*

*Please note that the forward button used to proceed to the next question is located at the bottom right hand corner of your screen. In some instances you may need to scroll down to the bottom of your screen to access this forward button.*

***Your answers will be kept confidential. They will be combined with answers from other principals to calculate totals and averages in which no one school can be identified.***

*To answer questions in this questionnaire, please consider the following definitions:*

*'School science' includes all science courses referring to the domains of physics, chemistry, earth science, astronomy, biology, applied sciences and technology either taught in your curriculum as separate science subjects, or taught within a single 'integrated-science' subject. It does NOT include related subjects such as mathematics, psychology, economics, nor possible earth science topics included in geography courses.*
