

Dear teacher

Thank you for participating in this study.

This questionnaire asks for information about:

- *Background information*
- *Your initial education and professional development*
- *Your collaboration with teachers and parents*
- *Teacher beliefs and attitudes*
- *Teaching practices*
- *Your school*

This information will help illustrate the similarities and differences between groups of teachers in order to better establish the context for students' test results. For example, the information provided may help to establish what effect the availability of resources may have on student achievement – both within and between countries.

The questionnaire should be completed by you only. It should take about 45 minutes to complete.

If you do not know an answer precisely, your best estimate will be adequate for the purposes of the study.

Please note that the forward button used to proceed to the next question is located at the bottom right hand corner of your screen. In some instances you may need to scroll down to the bottom of your screen to access this forward button.

Your answers will be kept confidential. They will be combined with answers from other teachers to calculate totals and averages in which no single teacher can be identified.

To answer questions in this questionnaire, please consider the following definition:

'School' refers to the establishment at the physical address to which the questionnaire was sent. It does not include other premises, which might be part of a wider school chain, academy or alliance.
